

N-840
SNIPS

Serration on the blade provides a gripping action on the material being cut.

- It also can be used to cut aramid fibers which are used in fiber optic cables.

- Cutting performance: 2mm² dia. or less copper twist cable.
0.5mm thickness aluminum sheet.

- Hardness: HRC59 (cutting section)
- Weight: 60g

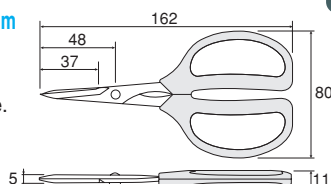

Serration blade

**N-838**
SNIPS

Able to cut a variety of material including solid strand or multi-strand copper wire, aluminum sheet, and other light sheet metals.

- Cutting performance: 2mm² dia. or less copper twist cable.
0.5mm thickness aluminum sheet.

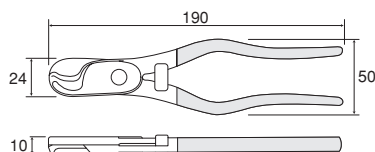

- Hardness: HRC59 (cutting section)
- Weight: 58g

**N-14**
CUTTER

Curved cutting edge for clean effective cutting action.

- Cutting performance: 22mm² dia. or less copper twist wire

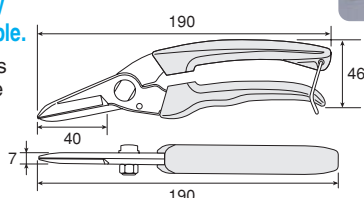

- Hardness: HRC56 (cutting section)
- Weight: 210g

**N-839**
SNIPS

Maintains a long life and enables easy cutting of thick electrical wire and cable.

- Cutting performance: 8mm² dia. or less copper twist wire

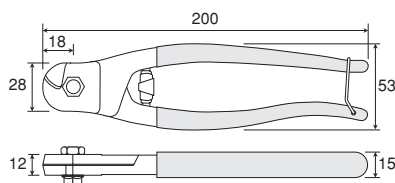

- Hardness: HRC58 (cutting section)
- Weight: 150g

**N-16**
WIRE CUTTER

Special blade design prevent wire cable from splaying.

- Cutting performance: 5mm dia. or less stainless steel

- Hardness: HRC62 (cutting section)
- Weight: 335g

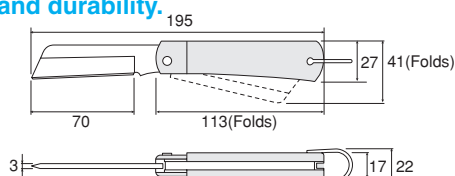

**Z-682**
ELECTRICIAN'S KNIFE

This electrician's knife features a sharp, hardened blade for strength and durability.

- Hardness: HRC60 (cutting section)

- Wooden handle

- Weight: 120g
