

## N-993 CUTTING TWEEZERS

These are cutting tweezers which are suited for cutting ultra fine copper wire especially in restricted spaces.

- They can cut soft and fine wire which is 0.08mm to 0.3mm. This is done with hardened parallel blades.
- This tool can be useful for cutting wires on printed circuit boards.

- Cutting performance: Soft copper 0.08~0.3mm
- O.A.L.: 110mm
- Material: Stainless steel
- Weight: 25g

## Z-364 MAGNETIC PICKUP TOOL

- This handy telescoping magnetic pickup tool lengthen from 140mm to 630mm and which have a powerful ferrite magnet into the tip.
- This tool can effectively retrieve iron or steel small parts from hard-to-reach places.
- For example nails, screws, washers, key rings, pliers and such things as small pins.
- This magnetic pickup tool is equipped with a handy pocket clip, and also an universal joint provides the free angle necessary for object retrieval.

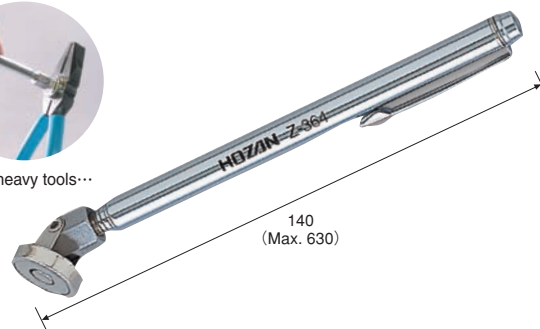

- O.A.L.: 140~630mm
- Magnet: Anisotropy ferrite magnet
- Magnet Power: 120mT(1200gauss)
- Magnet Dimension: 19mmφ
- Weight: 45g

To a narrow place...

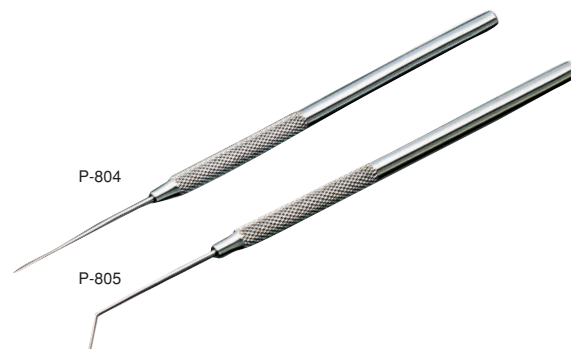

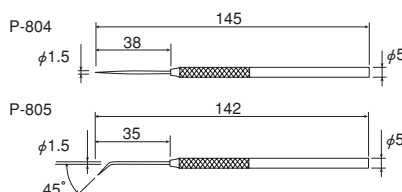

To a heavy tools...

## P-804/805 PROBE

- These scribes are effective in using with soldering because the stainless steel resists solder.
- They can be used to clear the molten solder from a clogged through hole in a PCB.

- O.A.L.: 145mm
- Handle diameter: 5mmφ
- Material: Stainless steel
- Weight: 16g

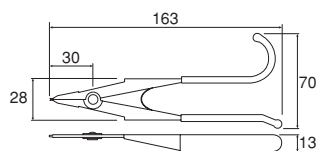

## P-790 RING PLIERS

- For small size external rings.

- O.A.L.: 163mm
- Capacity: 3/4mmφ
- Weight: 55g

※ This tool is for grip rings only. Do not use for other types of rings such as C-rings, or with out-of-specification's rings.

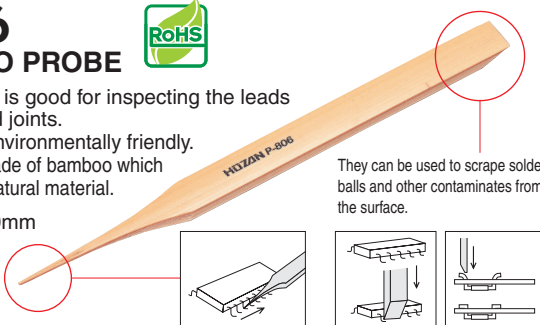

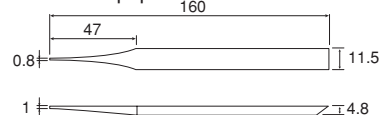

## P-806 BAMBOO PROBE

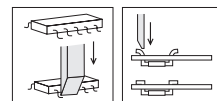

- This probe is good for inspecting the leads of soldered joints.
- They are environmentally friendly.
- They are made of bamboo which is a 100% natural material.

- O.A.L.: 160mm
- 2pcs/pack
- Material: bamboo
- Weight: 5g
- With sandpaper

They can be used to scrape solder balls and other contaminates from the surface.

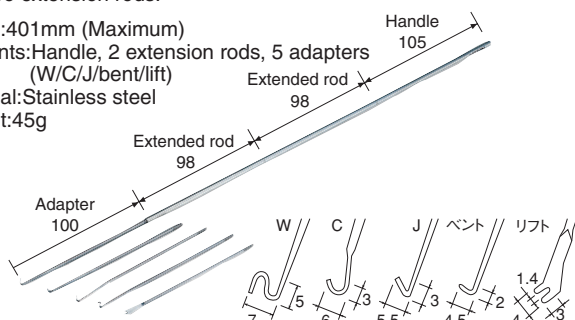

## P-803 SPRING HOOK KIT

- Set contents are one handle, five different adapters and two extension rods.

- O.A.L.: 401mm (Maximum)
- Contents: Handle, 2 extension rods, 5 adapters (W/C/J/bent/lift)
- Material: Stainless steel
- Weight: 45g

## H-75 SPRING HOOK

- The most suitable tool for office automation equipments which aid for inserting, removing and adjusting coil spring in hard-to-reach areas.

- O.A.L.: 215mm
- With grip cover
- Weight: 8g
